01 — INTRODUCTION

Saudi Arabia's event calendar keeps getting fuller

Vision 2030's giga-events, a growing sports calendar, and year-round cultural seasons mean more happening, more often, for more people.

Ongoing Events exists to make sure each one runs the way it was planned — not just the way it turned out. We're a Riyadh-based production team built for that pace: senior enough to own a large activation end to end, and small enough that nothing gets lost between departments.

02 — ABOUT US

About Us

Ongoing Events plans and delivers live experiences across Saudi Arabia — from large-scale fan zones and sports festivals to broadcast studios and sponsorship activations.

We handle the full arc of a project: concept, vendor scoping, BOQ and budget, on-site production, and post-event reporting — so a client holds one point of contact from first sketch to final teardown.

Our strength is a small, senior team that has worked across fan zones, seasonal festivals, media studios, and sponsorship programs — bringing the same discipline used on large government-facing activations to every project, regardless of scale.

03 — VISION & MISSION

Vision & Mission

VISION

Events that never quite end

To be the team Saudi organizers call first — known for live experiences that keep an audience engaged long after the last vendor packs up, and a client relationship that carries into the next project.

MISSION

One point of contact, start to finish

To plan, price, and deliver events with the same rigor as a construction project — itemized budgets, accountable vendors, and on-site management — so clients spend their energy on the event, not the logistics behind it.

04 — STRUCTURE

How We're Structured

A small senior team organized around four capability areas, so every project has a single owner instead of a hand-off chain.

CLIENT & PROGRAM MANAGEMENT

Single point of contact from first brief to final report.

PRODUCTION & SITE OPERATIONS

Build, install, run, and strike — managed on-site, every day of the event.

VENDOR & BUDGET MANAGEMENT

BOQs, procurement, and cost control across every supplier on site.

CREATIVE & BRAND DESIGN

Concept, branding, and the look of the event, from signage to stage design.

05 — SOLUTIONS

End-to-end, not piecemeal

Most organizers hire separately for concept, production, and branding. We run all three as one team, so nothing gets lost in the handoff.

CONCEPT → DESIGN → BUILD → RUN → REPORT

One contract, one budget, one team accountable for the result — whether the project is a single activation or a season-long program.

06 — WHAT WE DO

Services 360°

LIVE EVENTS & FESTIVALS

Cultural festivals and seasonal programming, planned and run end to end.

FAN ZONES & ACTIVATIONS

Large-format public activations built for high daily footfall.

BROADCAST & PODCAST STUDIOS

Studio design and build-out for media and content partners.

SPONSORSHIP & BRANDING (BOQ)

Itemized branding and sponsorship packages, priced and vendor-ready.

EQUESTRIAN & SPORTS EVENTS

Festival planning for niche sporting audiences, including revenue-share models.

VENDOR & BUDGET MANAGEMENT

Multi-vendor BOQs, cost control, and logistics across the full site.

Our Blueprint

Four stages, the same order, every project — so nothing gets priced after it's already been built.

01

Scope

Define the site, audience, and budget ceiling before a single line is drawn.

02

Price

Itemized BOQs with vendor comparisons, so every cost is accountable.

03

Deliver

On-site production and day-of management from build to teardown.

04

Report

Post-event numbers — footfall, spend, and lessons for the next one.

08 — DOMAIN EXPERTISE

Where We Go Deeper

Beyond general event production, four areas where we spend the most repeat time.

01

Season & Master Planning

Coordinating a full calendar of activations rather than one event at a time.

02

Vendor & Cost Governance

Line-item BOQs and side-by-side vendor comparisons before anything is signed.

03

On-Site & Crowd Flow

Layouts built around footfall, queueing, and safety, not just aesthetics.

04

Sponsorship Reporting

Turning a sponsorship package into a measurable on-site presence.

Previous Experience

Selected projects from the team’s experience before Ongoing Events.

Festivals, sports activations, exhibitions and corporate events

The Summer Gathering

SEASONAL FESTIVALS

Dalghan Park, Abha

A seasonal tourism and entertainment destination combining adventure activities, hospitality and Southern Saudi cultural programming.

SCOPE

Gamers Season

A themed horror attraction designed to immerse visitors through scenic environments and surprise encounters.

SCOPE

Themed scenic design and fabrication

Room layouts and visitor experience

Lighting, sound and visual effects

Interactive scares and attraction setup

Power HQ Horror House

IMMERSIVE ENTERTAINMENT

Gamers Season

An immersive horror experience using detailed environments, dramatic lighting and sound to build suspense.

SCOPE

Attraction design and themed interiors

Scenic construction and set preparation

Integrated lighting and sound effects

Visitor journey and immersive encounters

Al-Ittihad Fan Zone

FAN ENGAGEMENT

Al-Ittihad Club

A two-day fan zone with match screenings, interactive games and club-branded entertainment areas.

SCOPE

Fan zone preparation and operation

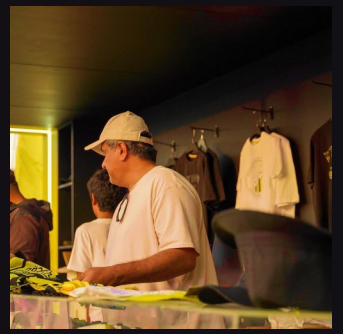

Screens, sound and lighting systems

Interactive activities and entertainment

Crowd flow, entry and exit coordination

Two-day event

Ministry of Sports Gala

GOVERNMENT HOSPITALITY

Riyadh

A formal dinner with coordinated hospitality, guest services and technical arrangements.

SCOPE

Venue preparation and event planning

Decor and catering coordination

VIP guest management and protocol

Audiovisual setup and entertainment

DQ Market

LIVE ENTERTAINMENT

Diplomatic Quarter

A roaming music program supported by professional audio systems and ongoing technical coordination.

SCOPE

Musician coordination and scheduling

Microphones, speakers and mixing equipment

Equipment deployment and performance logistics

Technical support and regular maintenance

12 musicians / Three-month program

School League

SPORTS PROGRAMS

Ministry of Education

Competition preparation and event support for a school sports league.

SCOPE

League planning and venue preparation

Team registration and schedule coordination

Sports equipment and referee coordination

Technical support, safety and media coordination

The Future of Women's Sports

CONFERENCES

Premier League

A conference focused on women's participation, leadership and development in sport.

SCOPE

Agenda and speaker coordination

Venue setup, branding and event logistics

Guest and stakeholder coordination

Technical production, coverage and streaming

SABIC Carnival

EMPLOYEE ENGAGEMENT

SABIC

An employee entertainment program with interactive games and cultural activities.

SCOPE

Carnival game and activity provision

Racing simulators and laser tag

Family entertainment and Arabic calligraphy

Setup, logistics and activity coordination

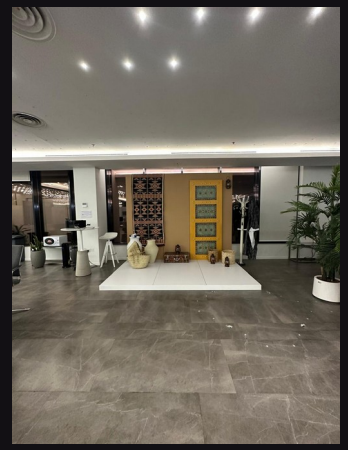

SDAIA Founding Day

HERITAGE CELEBRATIONS

Saudi Founding Day 2023

A heritage-themed event concept connecting Saudi cultural elements with SDAIA's digital transformation role.

SCOPE

Traditional and contemporary music programming

Custom booth and cultural design elements

Interactive screens, VR and AI demonstrations

Venue setup and delivery planning

Concept and proposed scope documented in the previous company profile
